3 reasons to love Float

Proactive spend control

Float offers both reimbursements and smart corporate cards, giving you more control over how, when and why money is spent across the company.

Easy-to-use software

Legacy solutions are bloated and make it difficult to update inefficient processes. Float lets finance teams close books up to 8x faster, and gives employees back 2 hours a month.

Built for Canadians

Trusted by teams coast to coast, Float's software collects and processes Canadian provincial tax information easily and reliably.

Compare Float and SAP Concur

Enable team spending with cards and software loved by finance and enjoyed by everyone.
