**ꞙ Float**

Bill Pay

Eliminate tedious AP processes and pay bills faster with the simplest way to manage company spend.

Powered by Float's intelligent business finance platform, Bill Pay automates invoice collection, payment, and reconciliation so you can process and close faster.

Fast bill intake

Create bills in seconds using Float's AI-powered Bill intake with Bills inbox, OCR, and Vendor Management.

Streamlined approvals

Customize bill and payment approval workflows for ultimate control with multi-level and dynamic approval roles.

Embedded payments

Initiate EFT, ACH and Wire payments directly from Float.

Easy reconciliations

Automatically sync bills and payments with Float's two way QBO and Xero sync.

Pay your bills with Float Cards

Easily create Float Cards for your vendor payments and get cashback on your spend with Float.

Simplified spending for the whole team

Cards   Reimbursements   Bill Pay

How it Works

Float makes managing AP a breeze, so your team can eliminate administrative work and save time to focus on what matters.

## 1. Capture

Automated invoice collection to create bills in seconds, with AI-powered OCR that lifts the details so no manual data entry is required.

2. Approve

Custom approval workflows so invoices are approved (and paid) by the right people in your org chart.

3. Pay

Easily schedule or initiate EFT, ACH, and Wire payments directly in Float (with industry-leading leading rates).

4. Close

Automatically sync Bills and Payments directly to your accounting software or custom CSV export.

> Getting the Float system in place was a big win for us... there's no manual entry into our accounting system – it's all uploaded automatically.
